

Brexit, refugees and European Collaboration recommended in European Commission Selection and Monitoring Panel report to Galway 2020

Wednesday 1st August 2018:

The integrating of Brexit, refugees and other challenges facing Europe into the Galway 2020 programme is one of the interesting elements highlighted in the 2nd Monitoring Report of the Selection and Monitoring Panel of the European Commission on Galway 2020 European Capital of Culture.

Galway 2020 today received the report from the Selection and Monitoring panel. Welcoming the report, Hannah Kiely CEO of Galway 2020 said "The report was welcomed by the Board of Galway 2020 and they acknowledge the recommendations which will be incorporated to ensure the delivery of a very successful Galway 2020 European Capital of Culture. We look forward to collaborating with Rijeka, our sister European Capital of Culture 2020, and others across Europe as we deliver the project across the City and County".
