Second Monitoring Meeting Report Galway 2020
28th and 29th June 2018, Rijeka, Croatia
**Introduction**

In advance of the second official meeting with the ECOC Monitoring Panel in Rijeka on June 28th and 29th 2018, this progress report provides an accurate and informative update on developments and progression made since the designation was granted and announced on 15th July 2016.

The report also addresses the specific issues raised by the panel in the first monitoring report dated March 2017.

It is recognised that a year passed from the announcement of the designation on the 15th July 2016 to the appointment of the CEO to her position on 29th May 2017. This delay in appointment has resulted in some delay in certain areas, but it also recognised that huge progress has been made since that appointment.

The primary foci for the first year has been to get the Company up and running, put a strong skill set based Board in place, established sub-committee to support the executive and board, and carry out a stress test on the full programme in the bid book, and rolling out the initial Flagship Programme Small Towns, Big Ideas.

The report comprises the following sections as suggested in the communication received from the Commission, and it is accompanied by the required financial tables and relevant commentary.

1. Long Term Strategy
2. Programme
3. Capacity to Delivery
4. Outreach
5. Management
6. Milestones
1. Long Term Strategy – Update

1.1 Cultural Strategy

“Everybody Matters – A Cultural Sustainability Strategy Framework for Galway 2016 -2025” and Galway 2020 - 8 June 2018

Galway City Council adopted “Everybody Matters – A Cultural Sustainability Strategy Framework for Galway 2016 -2025” in early summer 2016. The Cultural Strategy, as it is more succinctly referred to, sets out Galway as a working model of cultural sustainability, community participation, best practice and world-class creative and cultural excellence. This is underpinned by a commitment to facilitating local, national and international hubs, providing support and inspiration for projects, partnerships, and infrastructure.

The implementation of the Strategy is phased over three periods of approximately 3 years each. This first period is currently underway and integrates with the work plan of the Galway Pilot Cities project which the city is engaged with alongside United Cities & Local Government/ Cultural Action Europe.

The work plan consists of 30 discrete actions being implemented through a variety of departments and partnerships. The roll-out of the strategy also now integrates with the Creative Ireland programme. The Creative Ireland Programme was launched by the Irish Government in December 2016 and is guided by a vision that every person in Ireland will have the opportunity to realise their full creative potential and it encourages, facilitates and supports initiatives that enable access to and participation in creativity to sustain wellbeing for all. One of the key elements of the programme is the engagement with and cooperation of local authorities and the establishment of Creative & Cultural Teams in each of the 31 local authorities in 2017. It is noteworthy that in the preparation of the brief for Creative Ireland (and in particular Pillar II which charges each of Ireland’s local authorities with the task of devising a local creative and cultural strategy) explicit reference was made to “Everybody Matters – A Cultural Sustainability Strategy Framework for Galway 2016 -2025” as an exemplar to other local authorities. Creative Ireland charged each of those local teams with the task of developing a five year Creative and Cultural Plan and “Everybody Matters” has been adapted into “Creative Galway Plan 2018 -2022” which incorporates the key strategies, context and priorities of “Everybody Matters” to the same template being employed by the 30 other local Creative & Cultural plans. A Cultural Strategy/Creative Galway Implementation Plan 2017 – 2019 has advanced the roll-out of the “Creative Galway Plan 2018 -2022” / “Everybody Matters 2016 – 2025.” For example, in 2017 10 separate projects, which operated a pilot measure, were undertaken to a budget of c. €65,000.

Internally, within Galway City Council, the key objectives of the strategy are being rolled out within the Department of Economic Development, Community, Culture & Communications and other departments through the City Museum’s strategic plan, the Heritage Plan, the Local Economic & Community Plan and the Arts Plan. The current Arts Plan with a key commitment to access, engagement and participation will be reviewed in Quarter 3 and a new plan prepared to be in place for Q1 2019.

A comprehensive Cultural Infrastructure Programme is currently in hand. For example, the City Museum expansion project is in the second phase of development with a design team recently appointed and significant engagement ongoing with the principal funders, Failte Ireland (Ireland’s tourism development authority). Based on the Cultural Strategy’s commitment to supporting the development of a range of cultural hubs, Galway City Council expects to take possession of Lenaboy Castle before year-end to develop the new Children’s & Young People Creative Hub. Galway City Council is also actively supporting the bid to be submitted by end June under the Regional Enterprise Development Fund led by Galway Mayo Institute of Technology for the creation of a Digital Media/Moving Image Hub at Cluain Mhuire.

Galway City and County Councils, in conjunction Galway UNESCO City of Film and the Western Development Commission (WDC) and in association with the local authorities in the counties of Clare, Donegal, Mayo, Roscommon and Sligo as well as Údarás na Gaeltachta. have successfully created a new €2 million fund; the West Regional Audio-visual Production (WRAP) Fund will encourage the film, television, animation and game industry in the West of Ireland. It is estimated that this investment will create 90 direct additional jobs within the industry in the Western Region. As well as supporting local projects, it is hoped
that the Fund will also help attract international production companies to the western region, having knock-on benefits for the wider economy and for future tourism to the region. The process of developing a Public Realm Strategy has commenced under the direction of City Council’s Planning Department which will inter alia incorporate the concept of public space being cultural space as per the Cultural Strategy.

Based as it is on a broad definition of culture and sustainability, the European designations of European Green Leaf 2017 and Region of Gastronomy 2018 continue to be successfully rolled out on a partnership basis and have underpinned the objectives of the Culture, Environment & Place and Culture & Economy respectively.

It is expected that further development regarding the governance of culture including a Cultural Forum of relevant stakeholders in the city will emerge through Q2 & Q3 2018. Linking to the Pilot Cities’ process previously undertaken of a stakeholders’ workshop/participative event, it is proposed to revisit this model. This should follow the Future Search legacy workshops being held in the third week of June at which many of the cultural stakeholders for the city and region will attend. A key element in the future governance of culture, bringing together all sides including local authority, statutory agencies and cultural actors and agencies, may be determined by new models which may emerge through the just-announced process of amalgamation of the two local authorities. The existing Strategic Policy Committees in both councils with responsibility for Culture may also require modification but can be bolstered by national government’s stated aim and commitment that,

“A unified council will provide a geographically balances and integrated approach to economic development throughout Galway and further boost its vibrant cultural and artistic milieu.”

The implementation of “Everybody Matters – A Cultural Sustainability Strategy Framework for Galway 2016 -2025” through Phase I though 2019 and beyond will continue to be a dynamic and, at times where appropriate, an iterative process.

1.2 Monitoring and Evaluation

This is an area which is currently behind in development but is underway with NUIG and Insite Centre

2. Programme – Making Waves

2.1 The Vision

Galway’s Culture is our people, our land and seascapes, our traditions, arts, languages, music and sport. These have been influenced by the ebb and flow of migration and are expressed in our music and dance and are imprinted into the very fabric of our lives.

Making Waves is about renewal, disruption and transformation of our culture, both Irish and European. Our Vision is to celebrate what is most valuable in this culture while making waves of renewal, disruption and transformation. This requires us to celebrate our traditional ways of doing things, renew our enthusiasm for all we have, disrupt the status quo and grasp the new, digital technologies, in order to transform how we live our lives.

Galway City and County is ready to unlock its vast cultural capacity in a wave of events, performances and initiatives which will leave the West of Ireland transformed. The initiative is also designed to make waves across the whole of Ireland and Europe too. We are going to celebrate new voices, young voices, our cultural jewels, traditions, both new and old. And we are inviting Europe and beyond to ride these waves with us. Making Waves gives expression to Galway’s boundless possibilities by inviting us all to see and enjoy the City and County as it has never been seen before – through a gigantic wave of county wide cultural events spreading from shores to hills, just about everywhere, including places you would not expect such experiences.

We will be Making Waves by flooding our Communities with Culture. We will deliver our vision through a series of Flagship Projects, each containing elements that will renew, disrupt, transform and celebrate our culture. These will focus on:
• engaging local communities and linking our communities with national/European and international artists
• reimagining our climate
• exploring the promise and perils of the digital revolution
• large scale performances
• reaching out to Europe and the World through culture
• placing children and young people at the centre of Galway 2020

We will be Launching our extraordinary year with an invitation to the world to join us for a special weekend in January 2020 for spectacular events featuring thousands of local people for a local and international audience. From 2018 local and international artists will be working in communities across the County and City to prepare our spectacular opening and closing events.

Our communities are our greatest wealth and at the heart of everything Making Waves is about. Our Flagship Project Small Towns, Big Ideas which was launched on 20th January 2018, invites our communities to develop their own cultural project and celebrate “Meitheal”—the ancient Irish tradition of coming together for a common purpose.

In 2018 and 2019 communities from Galway City and County have and can apply for financial support to work with artists and cultural practitioners to develop projects for where they live or work, using the three themes of landscape, language and migration as inspiration.

We have had a fantastic response to our 2018 Open Call to Small Towns, Big Ideas with over 140 applications submitted from communities across Galway county and city. Through an independent assessment process, 52 of these projects have been selected and these will form the first wave of new cultural initiatives in local communities from July 2018 onwards.

See Appendix 1 for an overview of this first wave of Small Towns Big Ideas projects.

The European Dimension of Small Towns, Big Ideas is crucial to its delivery, we have collaborated with Aarhus 2017, Leeuwarden 2018 & Rijeka 2020 on their community programmes. The first citizen exchange took place in Leeuwarden in May 2018 as part of EU Neighbourhood Day and 3 citizens from Galway representing projects from Small Towns Big Ideas met with 6 European Capitals of Culture and their citizens. The next EU Neighbourhood day will take place in Matera in 2019 and in Galway in 2020. We will also host a European Showcase in autumn 2018 and invite communities from the other Capitals of Culture to meet our communities and talk about their experiences. While EU Neighbourhood day is an intimate gathering, the European Showcase is much larger and we would hope that over 200 citizens will attend.

An Artist in Every Place Flagship Project will link communities from Small Town, Big Ideas with Irish, European and international artists through residency programmes across the County and City. Locals and visitors alike will discover new art in the most fascinating and unexpected places, from hospitals, boats, and islands to historic or abandoned buildings. There are a number of artist led projects in this programme which push the boundary of art, science, landscape and health. These include Aerial Sparks, Promised Paradises, Then and Now and Changing Waves. Through a Limited Call Artists will be asked to respond to our themes of language, landscape and migration. The Call for An Artist in Every Place is currently being drafted and we anticipate announcing the call in Winter 2018. Residencies will commence in 2019 with production/outcomes/exhibitions in 2020.

Another Flagship Project Hope It Rains challenges our perception of the Galway weather. Rural and city communities will collaborate with world renowned artists and young emerging designers to create major events across the County and City to encourage us to reimagine our attitude towards the weather. What we currently perceive as a negative will be a source of joy and delight.
Our Digital Flagship Project.

We have taken a very practical approach to the development of the Digital Programme. We have established a ‘Creative Digital Team’. The Creative Digital Team comprises a number of the producers from the projects outlined in the bid book programme along with some new cultural partners and our Digital Communications Team.

The Digital Programme design and strategy is a collaborative process led by the ‘Creative Digital Team’. The Creative Digital Team will report to our soon to be appointed Digital Producer, and are currently designing the programme of work which includes:

- **Capacity building**: Training being delivered by our European Partners, some of these include; Ars Electronica and CREW.
- **Youth/Education**: The Digital Producer will issue an open call limited to young people in Galway, of which 25 will be invited to be the *Digital Youth Squad*. Over the summer of 2018 the group selected from the open call will be mentored by 2 producers to become facilitators of the summit, selected as the best young digital changemakers by Galway 2020. These young people will go through a journey of learning and self-improvement enabling them to help people to acquire digital skills and empower them to actively participate in a continuously changing digital society. The purpose of the summit is
  - to give a voice to young people from local, national and international contexts to represent and discuss what it means to be a young EU digital citizen.
  - to develop themes that will inform the digital strategy and programme for Galway as European Capital of Culture in 2020.
  - to involve young people in the co-design and co-delivery of our Digital Programme
  - to empower young people in the design of their own futures, by giving them an opportunity to lead and shape the programme aligning with their creative digital merit.

- **The Creative Digital Team** are working with both the digital producer and projects across the programme to ensure that EVERY project in the programme will have a digital strand. They are also driving the core artistic content of the Digital Programme. The team are multi-skilled and come from Art, Digital, Engineering, Science, Technology, Communications, Education and Research backgrounds. This is a co-creation model and one which works in the context of the programme of Galway 2020.

- **Digital Communications Team**: The digital communications team will work across the programme on digital engagement and participation which will include all forms of digital communications including social media, website and live streaming. They will work closely with our projects and our communities to ensure strong digital communications across the entire programme. They will also provide training and support to both the producers and our communities.

- **Evaluation**: The team will collaborate with our local research partner NUIG, Education department and Social marketing to develop an Evaluation tool kit, which will develop training and evaluation methodologies for the projects and members of the delivery team to make sure the voice of children and young people is coming through the programme, from concept to delivery through to legacy.

- **Legacy**: Legacy will be important in this programme, we want to:
  - Identify successful strategies that encourage and enable young people to become young Designers in their own future. We want our *Digital Youth Squad* to achieve this and mentor them into 2021 to make this happen.
  - Develop capacity mechanisms in Galway so that we can share these with other ECoC’s as part of the Digital EU Conversation into the future.
**Weigh Anchor** is our Flagship Project which places emphasis on large-scale performances of music and theatre, visual arts, sports and spectacle in incredible outdoor and indoor spaces across the County and City. The only thing to expect is the unexpected.

Our **Ship to Shore** Flagship Project is all to do with reaching out to the world through culture; from an international festival of sheep, wool and cheese to dance and film festivals plus a celebration of Irish music and dance – we invite the world to taste, to listen, to move to the Galway heartbeat.

The **Forward Motion** Flagship Project is a ground-breaking initiative placing children and young people, play and the arts at the centre of everything we do. As Article 31 of the UN Convention on the Rights of the Child reminds us, “Every child has the right to rest and leisure, to engage in play and recreational activities appropriate to the age of the child and to participate freely in cultural life and the arts”. *Every child* in Galway County and City will have the opportunity to take part in events, workshops or performances specially designed with their rights to participate in cultural life in mind.

A New Project - **The Healing Project** is a legacy project helping to address the collective trauma experienced by those touched by institutional abuses in past decades. There will be a producer assigned to this and we will work in areas of Collective Trauma and how Culture can be used as part of the healing process. We intend to deliver this in 2020.

**Overall Programme Update** - An update of the different stands of the programme is outlined in Appendix 2. It shows the status of each project, its budget and partners as at 13th June 2018.
2.2 Galway 2020 Mission

“To deliver Galway 2020, A European Capital of Culture, that enables the creation of more Culturally Vibrant Communities!”

As part of the delivery process we have commenced Memorandum of Agreements (MOA) with each project as outlined below, which will then move to contract stage and finally delivery.

The Memorandum of Agreement (MOA) process.

The purpose of the MOA process is to give each cultural partner a ‘paid and supported’ opportunity to interrogate the feasibility of their projects, fully cost and analyse each project, set dates, times, locations and fixed costs for each project along with clear production schedules for 2019 and 2020.

There is now full momentum in that we have fully moved from the Bid Book to a full Cultural Development & Implementation Plan for the Programme. MOA’s require cultural partners to define:

- Concepts and Themes
- Production Timetables and Planning
- Key Artistic outcomes
- Audience development plans
- Capacity to Deliver & training needs
- Education/Young People/Participation
- Digital Strategies
- Full financial plans
- Communication/Evaluation Plans
- Project Summary for Communication by G2020

2.3 European dimension, dialogue and mutual understanding and cooperation

Almost all of the projects within the programme have EU Partners and feature EU artists and organisations, we built this into the design of the programme from the beginning. We have also developed good relationships with our colleagues in other European Capitals of Culture, some relationships/partnerships include:

Example projects with EU partners:

**Monument**-This innovative project will investigate some of Europe’s biggest and most impressive stone monuments located on some of Europe’s smallest islands and ask when, how and why they were built. This exciting project will represent the communities that created these massive monuments and work with the scientists and scholars who have investigated them – focusing on what has endured and what has been lost.

The project will engage with the current island communities to gain greater insight into their peripheral perspectives; the richness of their languages and unique cultures and to develop a greater understanding of the lasting impact of these monuments in the island communities and the national consciousness.

The project will engage artists and makers to imagine a lost world vision and re-make it in a new way through their responses to the monuments and their island landscape, culture and communities.

This pioneering project will create a **multidisciplinary Exhibition Platform** which will be the primary output of the project and will involve a collaborative process to bring to life each element of the exhibition. Include in this process will be agencies, institutions and individuals that represent the archaeology; architecture; craft and design; cultural landscape and tangible and intangible heritage; construction; sustainability; and the social history associated with the monuments and the islands.

The project will be built progressing through four different phases: -1. **Research & Visit**, 2. **Symposium**, 3. **Collaboration, Commission and Create**, 4. **Exhibition Platform**.

**Small Towns, Big Ideas**

Some of the projects in Small Towns, Big Ideas combine local cultural heritage and traditional art forms with new, innovative and experimental cultural expressions- See [Appendix 1](#) for examples of projects.

**Project BAA BAA**

Project BAA BAA celebrates the Sheep in all its glory. From textile to food, exhibitions and banquets to contemporary displays of the old.

None of the projects in the Galway 2020 programme are single art form, all are layered. In the design of the programme for the original bid book, all projects were designed to be layered projects that had a built-in community or schools strand, be inclusive, be cross-art form and take our rural areas into consideration in terms of production and location of events.

2.4 Activities and success to date

All projects have now gone through full feasibility, site visits, costings and venue discussions as well as planning the calendar for the year 2020.

All project 'go and see's' are now complete. 26 Artists/producers have travelled to meet with European partners and collaborators or to see new work and exchange across the projects within the programme. This was completed between October 2017-June 2018 as part of the 'MOA Process' as part of their own capacity building.

Some Specific Project activities include;

- **Symphonic Waves** underway. 2nd year rehearsals commence on 22nd July 2018, conductor has been appointed and our partner (GRETB) are currently hiring an Ensemble co-ordinator. 58 young people are now part of the Orchestra. 1 residency is complete with German Youth Orchestra and trainers as well as 5 public performances. Full programme of work including performances and residencies are now in place for 2018.

- **Aerial Sparks** project residencies and artist talks are now underway, two sea trips on the Celtic Explorer Ship have now been completed and the next one is planned for September 2018 with Artist in Residence, Carol Ann Connolly and Curator Louise Manifold.

- **Eye on the Edge** - 20 young people from Galway have participated in Strasbourg at the European Youth Parliament in June 2018.
- **Dance Project** - has hosted workshops in Galway by Dans Nest, Dutch partner on the Project.
- **Northern Peripheries** has hosted an EU partner meeting, second meeting will take place in June 2018.

### 3. Capacity to deliver

Please also refer to the previous section of the report on the Cultural Strategy.

Audience Development formed part of the development (MOA) process and an audience development plan has been outlined for each project. These will form the basis of our audience development strategy and will be greatly enhanced by our recently appointed Audience development producer. He will work alongside a wider Galway 2020 sub-team to include our CEO, our Head of Tourism, Head of International Relations, Head of Community and Outreach, Volunteer Manager and Director of Communications and Programme Manager. The sub-team will ensure a very comprehensive audience development strategy which is organisational wide and one which will take into account, existing audiences, new audiences, international audiences, data collection, marketing and communications. We feel that this required a dedicated producer as our Audiences will be a key part of Galway 2020.

The Senior Management Team is overseeing the monitoring and evaluation of the overall project by National University of Ireland Galway and mechanisms and tools for data collection will be established as base line studies as part of the overall approach to audience development which will be integrated into our monitoring and evaluation approach.

In addition, we set out below the broad and strong support and sustainable commitment and advancements in place:

#### 3.1 Cultural Strategy for the City and /county (see section 1.1)

#### 3.2 SLA’s

Strong links have been established with both local Authorities both in terms of Financial and “In-Kind” support. Galway 2020 has signed a comprehensive Service Level Agreement (SLA) with both Local Authorities, which not only secures the long-term funding from both authorities but establishes a strong and positive working partnership with clear reporting and governance structures. This relationship has been further strengthened by both local authorities, where they have both appointed a senior level liaison team that will work hand in glove with Galway 2020 in other important aspects such as logistics, locations, planning, relationship building and 3rd party introductions.
### 3.3 Briefings given

Galway 2020 CEO and team have been extremely active in engaging with our key stakeholders at a local, national, European and International Level. Over the past 8 months we have had over 25 high level engagements ranging from local community groups, National State Departments, other European Cities of Culture (including Rijeka 2020), European Ambassadors, International visitors from the USA, Middle East and Asia (see table below). (Please note that in conjunction with these meetings there are weekly functional meetings with all the organisations involved with the delivery of the Galway 2020 project).

### 3.4 National Government Commitment

Full government funding of €15m has also been secured and officially confirmed by the Irish Government. Initial funding was received from the Irish Government in Quarter 4 of 2017. Minister Josepha Madigan has addressed the houses of Parliament providing overview of Galway 2020 and confirming the governments’ commitment to Galway 2020. The Government is also represented on the Board of Directors by Declan McGonigal. See Appendix 3: Letter of Support National Government
Visit of Taoiseach

In April 2018 the Prime Minister of Ireland – Taoiseach Leo Varadkar visited Galway 2020 offices where he received a full briefing in relation to the programme and Galway 2020.

Question time at national government took place in 2018 with full briefings given to Government.

4.0 Outreach

4.1 Community Engagement

Our Outreach and Community Engagement work continues to retain its commitment to building genuinely strong relationships with local communities and civil society organisations that was established during the bid phase and continued throughout the transition period. Our approach involves both broad community engagement and more targeted work with harder to reach and marginalised groups, as outlined in the table below.

Our Outreach work is also fully integrated and aligned with the development of the cultural programme. The MOA Process previously outlined illustrates how as each project within the programme is progressed through the MOA Process the community engagement and social inclusion dimensions for each are fully scoped out and agreed with the project partners. This approach enables us to ensure that the scope and capacity for community engagement, volunteer participation, and specific actions in the area of social inclusion are fully and clearly identified and then integrated into the planning and development of each project from the outset.

4.2 Wave Makers – Galway 2020 Volunteer Programme

Galway 2020 Volunteer Programme *Wave Makers* is based on best practice in volunteer management and on the learning and best practice established in other ECOC’s. Our work in this area has progressed considerably and we have undertaken a programme of research and consultations that has included:

- Gathering information and resources from a wide range of other ECOC volunteer programmes. This work has also included visits to Hull and Derry to meet with key personnel involved in the development and delivery of their volunteer programmes.
• Direct participation in the newly established network of ECOC Volunteer Programme Managers. This network is facilitating the transfer of best practice learning in volunteer programmes between a range of previous and future ECOC’s including Liverpool, Wroclaw, Pafos, Aarhus, Matera, Plovdiv, Rijeka, Galway and others.

• Consultations with key volunteer structures at local (Galway Volunteer Centre and NUI Galway’s award-winning ALIVE programme), national (Volunteer Ireland) and European (European Volunteer Centre) levels to identify resource and partnership opportunities at each level for our volunteer programme.

The initial research and consultation work has now been completed and has provided us with a clear picture of what is required for our Wave Makers Volunteer Programme in terms of resource requirements, timelines, recruitment strategy, and integration with the cultural programme.

We have now appointed a dedicated Volunteer Programme Manager and will quickly move from the research phase to the development and roll out phase of our volunteer programme in the second half of 2018.

5.0 Management

5.1 The Company

The independent company Galway Cultural Development and Activity Company Limited by Guarantee was set up and fully functioning from 1st June 2017. The process of developing an independent board with the right skill set continued and was fully populated by November 2017 See Appendix 4: Board of Galway 2020.

The relationship between the board and the Galway 2020 Executive Team is very good. There is a clear schedule of meetings of the board set out at the commencement of each year, meeting bi-monthly or as required. There is a clear agenda with all statutory and fiduciary requirements in place. There are also a number of Sub Committees of the board in place each with a clear Terms of Reference. See Appendix 5: Sub Committee TORs.

The relationship between the Local Authorities and National Government has been well established and meet on a regular basis. The CEO presents to the Local Authority on average each quarter with updates, and to National Government as requested.

In addition to our scheduled board meetings each of the executive management team meet their respective Sub-Committees 2 to 3 weeks prior to each board meeting as scheduled above. Sub-Committees are:

- Audit Committee;
- Communications Committee;
- Programme Review Committee.

5.4 Current Financial position

The appointment of a Financial Director and a Financial Controller has ensured the company made significant strides in the areas of: governance, risk management, company secretarial and financial controllership, as well as establishing strong company procedures and policies and the implementation of industry standard accounting and management reporting systems. This has resulted not only in the
company receiving a full unqualified audit for the financial year 2017 but has allowed us to secure the agreed tranches of funding from both local authority agencies and national government.

1. Full Budget review has been undertaken. The budget contains at a granular level the full detail and timing of all income and expenditure. This contains detail at a monthly, quarterly and annual basis and is monitored and presented to the board on a quarterly basis. See Appendix 7: Galway 2020 Budget

2. In line with best practice and to ensure the highest levels of governance, an audit committee has been established and is chaired by board member Enda Newton. Audit charter has been established and scheduled meetings occur every second month.

3. Risk register has been established and is maintained as a standing order for each board meeting. This is a live document where current risks are reviewed, reassessed and where necessary risk profile and risk level adjusted. Any new risks are assessed and logged.

4. Company secretarial. All annual returns, registration of directors and other returns are fully up to date and filed in accordance with the Companies Regulations Office and the Companies Act 2014.

5. Service level agreements have been negotiated and signed between the company and the two local government authorities. Both these Service Level Agreements not only secures the long-term funding from both authorities but establishes a strong and positive working partnership with clear reporting and governance structures.

6. Full government funding of €15m has also been secured and officially confirmed by the Irish Government. Initial funding was received for the Irish Government in Quarter 4 of 2017. This funding was secured on submission of detailed expenditure which was independently audited. Further showing the high standard of record keeping and financial reporting structures that have been established by the company.

7. Programme data collection procedures from bid phase through to archive have been established as per fig 1.

Funding to projects from Galway 2020 is only done on Collecting and reviewing 4 key data areas: Programme; Legal/Procedural; Finance and communications. Payment is made on full review by Finance Department and CEO. Transfer of Funds follows our bank process which requires two signatories.

### 5.6 Communications Strategy

Responsibility for our communications was taken over by the Communications Director in October 2017. The Director developed the strategy with support from the Communications Sub Committee. The goal of Galway 2020’s Communications team is to amplify the story of Galway 2020 to local, national and international audiences to demonstrate the opportunities and experiences Galway 2020 offers and to generate participation in and support for the programme. Fundamentally, we believe that by giving voice
to the Vision of Galway 2020 people will have a greater understanding of the power of culture to be a catalyst for a future of inclusivity, participation and cultural sustainability.

**Vision**

The Communications Strategy supports the overall Vision and Outcomes of Galway 2020.

**Objectives**

Galway 2020’s communications is focused on achieving five core objectives:

- Empowering people throughout Europe and the rest of the world to experience and actively participate with Galway’s programme of cultural events in person and in virtually immersive worlds.
- Inspiring participation and ownership amongst the citizens of Galway in Galway 2020. There is something for everyone, whether creator or appreciator of culture.
- Ensuring consistency of appropriate messaging across the organisation based on Galway 2020’s organisational strategic plan.
- Strengthening the national /international profile of Galway and the region as a major European hub of culture and creativity.
- Increasing national and international tourism to Galway and the region.

**Communications Principles**

To enable us to achieve our objectives we are working to the following principles. We will ensure that Galway 2020 is being open and accessible to the public, institutions, media, politicians and authorities. We are active in encouraging cultural debate and ensuring that all information is freely available to all the interested parties. To this end we:

- have a corporate identity and ensure all our communications adhere to our guidelines;
- are using our corporate logo and design as well as the EU logo in all communications so that audiences will have no doubt that they are from Galway 2020 European Capital of Culture;
- clearly state in all communications that the European Capital of Culture is an EU initiative
- are accessible and listen;
- communicate through the mediums of English and Irish;
- communicate in a proactive and timely manner;
- are reliable;
- promote dialogue;
- are transparent;
- cooperative and communicate actively;
- honest, open and fair;
- communicate in clear concise way and make the goals of Galway 2020 clearer through concrete examples;

**Key audiences**

We are developing target profiles and characteristics for all Galway 2020 projects as projects are rolled out. There are also many key target audiences that are readily identifiable and for whom the communications team are developing bespoke communications. These are:

- People living in Galway city, county and the region
- Staycation visitors to Galway
- International visitors /tourists – Culturally curious
- Tour Operators, Tour agents, DMC, Group handlers and coach companies.
- Funders – those who contribute financially to the delivery of the Galway 2020 programme – National Government, Local Authorities, EU, Corporate funders

- Volunteers – Galway 2020 Wave Makers
- Employees of Galway 2020,
- Our Board.

Communications channels

Online and social media continue to be key channels for us in engaging with our audiences and we have continued to build our social audiences organically (see media engagement below). We are also focusing on traditional media and we have signed Memorandums of Understanding with both national broadcasters RTÉ and TG4. Both agreements cover both marketing and content creation across all platforms. As both are members of the European Broadcasting Union(EBU) they are ideally placed to give us access to 73 public service media organisations across 56 European countries. Together the EBU members have the potential to unlock an audience of over 1 billion people worldwide broadcasting in more than 120 languages. We also have media partnerships agreed with local press and radio station.

Public's response

As yet we haven't commenced tracking the public's response to Galway 2020. We are planning to start awareness /sentiment tracking this summer as part of the Monitoring and Evaluation process with NUI Galway and an independent market research company.

Media engagement

Galway 2020 has agreements in place with both of Ireland’s national broadcasters RTÉ and TG4 covering their TV, radio, digital and social channels along with media partnerships with local radio and press. Our plan for 2018 and 2019 is to build on these relationships and to increase visibility of Galway 2020 across all platforms. All media feature news, insights and commentary related to Galway 2020. Our first national social and radio campaign is commencing in June 2018 with the message “The year is 2020, The place is Galway, the countdown is on!” We are developing similar campaigns across TV, radio, print and outdoor media.

In addition to our media partnerships we also have engaged the services of Meltwater Media to assist with the monitoring and evaluation of our media engagement.

Social and online media continue to be at the centre of our media engagement. We continue to organically build our following and Galway 2020 continues to have one of the largest social media following of any ECOC. Across Facebook, Twitter and Instagram we have almost 90,000 followers with a reach of almost 3 million people in March 2018 coinciding with the funding call for our flagship programme Small Towns Big Ideas – see Fig 1.

Fig 1. Social media volume and reach -Jan – May 2018

Our media plan is to engage with local, national and international media across social and traditional channels to drive awareness of and engagement with Galway 2020. To date our media engagement has focused mainly on local and national media which can be seen by the heat map of coverage in Fig 2.
Our media coverage continues to grow across all channels. In the first 5 months of 2018 we had an average of 33 articles per month with a peak of 39 in April 2018 (Fig 3). Total potential reach of the articles during the period was over 81 million (Fig 4.) with a peak of 30 million during April 2018 which was when government officially announced funding support for Galway 2020.

Coverage in the media has been largely positive and is focused on Galway, Galway 2020 and Galway as the European Capital of Culture. Themes of the coverage can be seen in the word cloud in Fig 5.
Tourism Engagement Plan

The Tourism engagement team at Galway 2020 is responsible for delivering on our objective of increasing tourism numbers to Galway and the region by delivering on the following elements:

- To convince the inbound tourism trade to consider coming to Galway city and County ‘out of reason, out of season’ by building on Galway’s terrific reputation for creativity and the arts as new reasons to bring increased numbers of domestic and international visitors to the region.

- Catalysts in spreading demand/bookings for bed nights more evenly across the year by inspiring and supporting creative events in out of the way places throughout the year.

- To increase national and international tourism to the region in line with Failte Ireland and Wild Atlantic Targets of + 3% international and +1% domestic visitors in 2019 and 2020.

See Appendix 8: Tourism Engagement Plan

APPENDIX 1 – Sample of Small Towns Big Ideas successful projects from 1st Wave

52 Cultural Projects Spread Across Galway County and City

Sample Profile of Small Towns Big Ideas Projects

Ballinderreen Sur La Mer will develop a new cultural festival in the small rural coastal community Ballinderreen. Taking the theme of Landscape, the project will explore the unique coastal identity and heritage of this community through shoreline walks, talks and workshops. Taking the themes of Language and Migration, the project will explore the rich cultural diversity that exists in the community today. All of these elements will be woven together into a new weekend festival in October 2018 incorporating music, song, dance, food and much, much more.

Belonging in Ballybane will work with young people and their families in this city neighbourhood to create stronger bonds, connections and new collaborations within the local community. This project is rooted in the internationally recognised Narrative 4 story exchange model and will use food and music to facilitate exchange and learning between the project participants. This will include a series of cookery workshops with an international flavour and music workshops including song writing, rapping and deejaying. The project will culminate in a community feast and music performance event.

Galway’s Mother Tongues Festival / Féile Ílteangacha na Gaillimhe will celebrate linguistic diversity and showcase artistic activities that involve the use of the many languages spoken in Ireland today and will feature musical performances, storytelling, poetry readings and workshops for all ages, to mark the UNESCO International Mother Language Day. The goal of this new festival is to employ different art forms to celebrate and reflect on the strong link between language and cultural identity and belonging.

Galway Stories: 2020 will be a new collection of stories set in Galway city and county by twenty acclaimed writers who live, or have lived, in Galway and will include maps, photographs and background information on each town and neighbourhood featured.

An Lucht Siúil / The Walking People will take audiences on a fascinating journey exploring the many different nomadic cultures that exist in Europe and around the world and have done so for thousands of years. The project will show the diversity within these cultures but also to discuss the common social and cultural barriers these communities experience through a unique festival programme of music, art, film, theatre and poetry.

Oileán Beag, Pictiúr Mór / Small Island Big Picture will involve 20 artists drawn from a local, national and international base to document the island of Inis Oírr over a weekend through their various disciplines and to produce a body of work that portrays the essence of island life on the smallest of the Aran Islands. The works will then be exhibited at Áras Éanna Arts Centre gallery before going on a Galway wide tour.

Hannah Kiely CEO
Galway 2020
16 Merchant’s Road
Galway
H91 E342

December, 2017

Dear Hannah,

I wish to acknowledge receipt of your recent correspondence seeking approval to draw down Government funding towards the delivery of Galway as European Capital of Culture in 2020. I understand that you are seeking this drawdown specifically as a result of the preparatory work which has been undertaken by Galway2020 during 2017.

I further note that these costs have been incurred following the setting up of the new Galway Cultural Development and activity Company T/A Galway 2020 together with securing staffing with appropriate level of expertise and suitability to deliver this flagship programme in 2020.

In order to ensure the delivery of Galway 2020 to meet the overarching aims of this European initiative, I am pleased to advise that this Department will provide a grant up to a maximum of €250,000 in 2017. This funding allocation is being provided on foot of the earlier decision by Government to support the European Capital of Culture 2020 competition which saw Galway chosen as the designated city following an open and transparent competition process. The Government has committed a total of €15m to the delivery of this initiative in Galway in 2020 in respect of which an oversight agreement is in the process of being put in place. The remaining €14.75m will be administered in line with the signed oversight agreement.

Drawdown of this funding is based on the provision of receipts / certification of expenditure up to €250,000 on the schedule of expenditure you submitted. It is subject to:

1) Acknowledgement of the Department’s contribution on all publicity and publication about the project.
2) Completion of a comprehensive report, including any conclusions or end product and any media comment or coverage of the project/events.

If you have any queries with regard to the above, please contact me at 01 6313894 / 087 2908193 or by mail at therese.oconnor@chq.gov.ie

APPENDIX 8: Galway 2020 Tourism Engagement Plan

The Tourism engagement team at Galway 2020 is responsible for delivering on our objective of increasing tourism numbers to Galway and the region by delivering on the following elements:

- To convince the inbound tourism trade to consider coming to Galway city and County ‘out of reason, out of season’ by building on Galway’s terrific reputation for creativity and the arts as new reasons to bring increased numbers of domestic and international visitors to the region.
- Catalysts in spreading demand/bookings for bed nights more evenly across the year by inspiring and supporting creative events in out of the way places throughout the year.
- To increase national and international tourism to the region in line with Failte Ireland and Wild Atlantic Targets of + 3% international and +1% domestic visitors in 2019 and 2020.

Stakeholders

1) **State Agencies** involved in tourism promotion of Ireland: Failte Ireland & Tourism Ireland
2) **Trade** (B2B*) businesses who’s focus is to bring tourists in/inbound to Ireland: Tour companies, Tour Operators, Tour Agencies – wholesalers and online, Destination Management Companies (DMC’s).

*Business to Business. The inbound travel trade is a catch all phrase for these businesses. Trade means this group in this document. Inbound means they literally bring visitors in to the country often used in the context of inbound/outbound agents or operators. Sources for these published databases are: Meitheal and ITOA.

Mechanics

1) **State Agencies**

**Failte Ireland**

Fáilte Ireland is the National Tourism Development Authority. Their role is to support the tourism industry and work to sustain Ireland as a high-quality and competitive tourism destination.

They also work with other state agencies and representative bodies, at local and national levels, to implement and champion positive and practical strategies that will benefit Irish tourism and the Irish economy.

They promote Ireland as a holiday destination through the domestic marketing campaign (DiscoverIreland.ie) and manage a network of nationwide tourist information centres that provide help and advice for visitors to Ireland. Galway 2020 is engaging with FI in the following ways:

Failte Ireland’s **Trade Portal** enables us book attendance at ‘meet the buyer’ events throughout the year with many mini paid to attend workshops, Meitheal being their annual flagship event. Meet the buyer events usual consists of 15- 30 x 1 to 1 pitches in a speed dating format. Timing is usually 8 – 10 to a trade representative.

**Calendar of buyer events** runs through the year in Ireland and is usually geo-market specific except for Meitheal which is world-wide. We plan to attend all such workshops.

17th & 18th April Galway 2020 attended its first international promotional event and had 64 x 1 to 1 meetings.

- We secured a unique opportunity to ‘meet the buyers’ (280) at a private dinner held the night before Meitheal began on Monday 16th April.
- This opportunity arose after connecting with the Wild Atlantic Way new head Miriam Kennedy and resulted in a very positive first meeting with a commitment from Failte Ireland Head of WAW Miriam and Head of Business Development Paul Mockler to support Galway 2020 in any way possible.
- The international buyers who attend Meitheal are recruited by Tourism Ireland in their markets and brought to Ireland with some € support.
• Failte Ireland hosts and entertains the buyers on arrival providing many familiarisation trips around the country.
• They also ‘bring in’ journalists, media, travel writers and social bloggers from targeted markets.
• Galway 2020 has been have signed up for notification across all these services and intends to avail of most if not all as and when they arise.

TOURISM IRELAND

Tourism Ireland is responsible for marketing the island of Ireland overseas as a holiday and business tourism destination. Tourism Ireland enables Galway 2020 to engage with international tour operators through “Meet the buyer trade” events, trade missions, advertising online and in print media, workshops, familiarisation visits, e-marketing, online tour agencies, co-operative marketing and publicity.

Tourism Ireland deliver world class marketing programmes in 23 markets across the world and reach a global audience up to 600 million each year.

• We commenced relationship building by introducing Galway 2020 to all the TI staff in all offices world-wide through a series of webinars, beginning on 9th April with our introduction. These were broadcast from the TI head office in Dublin. Invitations arose as a result of introductions at their annual Tourism briefing in December 2017 where we met all the senior management team and received invitations to present to all TI staff.
• Our collateral consisted of our first commissioned (90 second) video promoting Galway 2020 along with strong photography capturing the essence and spirit of Making Waves, accompanied with a take away brochure.
• This will be followed up with programme and market updates to Tourism Ireland staff in 23 markets/offices worldwide. Guide will be every 4 – 6 months. Presentation/Webinar will be customised to the news and updates at the time and each webinar will last approx. 30 minutes including 10 minutes for Q&A.
• TI Head of Markets all come to Dublin twice a year – once for Meitheal and again for their year-end marketing presentations. On April 11th we secured a briefing to the head of markets in our Galway offices and we joined this group for lunch. Here again we used our new video and strong photographic presentation and brochure.
• We will build our relationship with TI offices internationally so that they will post relevant postings across various social channels about Galway 2020 programme, news and activities.
• The TI network of offices will be key promoters for us ‘in market’ for any Galway 2020 programmed events happening in their markets. This will be a micro-briefing reflecting detail to be shared when a particular geo-market is connected with the Galway 2020 programme.
• **We will be participating in a number of calendar of ‘in market’ promotional events** 1-1 speed dating, presentation and networking events organised by TI in specific geo markets.
• These in market events are offered via Tourism Irelands trade portal ‘Industries Opportunities’ along many other ways to engage with international visitors, media and trade i.e. ‘Jump into Ireland’ in the USA and ‘Flavours’ in the UK. At some events both trade and consumer meet like World Travel Market and the International Travel Bureau, ITB Berlin.
• **Other opportunities** we are investigating with TI are: Attendance at trade shows and on trade missions, Business tourism support, co-operative marketing including on and off-line campaigns funded on a 50:50 basis, web listing on Ireland.com, publicity press, media visits, bloggers etc, direct & e-mail marketing campaigns.
• Galway 2020 has been signed up for notification across all these services and intends to avail of most if not all as and when they arise.

2) Trade

**Inbound Travel Trade – the Trade**

• Published trade event databases generated by Failte Ireland and Tourism Ireland will form the core trade databases for use by us in connecting with relevant trade buyers by mail, phone, meet the buyer/pitch event or personal visit.
Throughout the year the agencies issue ‘invitations’ or ‘opportunities’ to attend ‘meet the buyers’ in Ireland or abroad which will offer us the opportunity to build our buyer seller relationship and relationship with both agencies.

Databases resulting from engaging with Ti, Fi & ITOA will give us all the trade contacts we need to promote Ireland to in any format we choose.

We will be attending the annual ITOA workshop in March in both 2019 & 2020. Incoming Tour Operators (ITOA) is Ireland’s longest established inbound tour operators association and the recognised body by the tourism agencies and key tourism industry stakeholder organisations.

**Dual promotion to domestic and international visitors**
